-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. Claims 1, 3, 11, 12 and 14 are rejected under 35 U.S.C. 102(e) as being anticipated by Ishii (US 6,647,223).

Ishii (US 6,647,223) discloses feeding apparatus (100), first cover (106), second cover (120) sensor (135), relationship between closing of covers and detecting the closing of claims 1, 3, 9, 11 and 12 (column 2, lines 22-43), holding member (131) and image forming means (110).

Allowable Subject Matter

2. Claims 2 and 4-10 and 13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
3. The following is a statement of reasons for the indication of allowable subject matter: A sheet feeding apparatus having all of the limitations of claim 1 in combination with a detector which is mounted in a moveable manner, the moving member has a third position, or an indication member or the platform containing the paper lower when

Art Unit: 3653

the first cover is lowered, or a regulating mechanism or wherein the platform supporting the stack of sheets falls under its own weight when the driving gears are disengaged or a sheet feeding apparatus having all of the limitations of claims 1 and 3 in combination with being possible to disengage the gears of a gear train that raises and lowers the stack of paper, or a sheet feeding apparatus having all of the limitations of claim 12 in combination with the moving member having a third position is not found nor is sufficient motivation found to make the combination in the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
